June 2024

## EXPERIENCE

---

**Square Tech Exchange** (Product based Software Company with 1 million+ users)  
React Js WEB DEV

Karachi, PK  
Dec 2024 – Present

- Developed modern and responsive web applications using **React.js**, **TypeScript**, and **Tailwind CSS**, ensuring cross-browser compatibility and smooth performance.
- Implemented dynamic and interactive features using **JavaScript (ES6+)**, with efficient **API integration** for real-time data handling.
- Managed backend development using **Python**, including **server-side logic**, **RESTful APIs**, and **integration with databases**.
- Optimized application performance through **lazy loading**, **code splitting**, and **DOM manipulation** techniques.
- Built and maintained **CI/CD pipelines**, improving code deployment speed and reducing manual errors.
- Worked with **AWS services** such as **EC2**, **S3**, **CloudFront**, and **CodePipeline** for application deployment and delivery.
- Collaborated closely on **requirement analysis**, **UI/UX planning**, and followed clean code practices and team coding standards..

**DEVAJ TECHNOLOGY** (Product based Software Company with 1 million+ users)  
PK Junior Dot Net Developer

Karachi,  
Jan 2022 – Dec 2023

- Proficient in developing desktop applications for restaurant POS systems using ASP .NET and C#.
- **Integrated MySQL databases** for managing real-time data, including order tracking, inventory, and user information, improving data management efficiency.
- Developed complex SQL queries for data retrieval, optimization, and reporting, ensuring seamless integration with .NET applications.
- **Enhanced database performance** by designing and optimizing database schemas and implementing stored procedures and triggers to streamline restaurant operations.
- Managed database migration and version control, ensuring data integrity and consistency across multiple systems.
- Committed to delivering scalable, secure, and high-performance solutions to optimize restaurant operations and enhance customer satisfaction.

**Freelance** (WordPress / Shopify Websites with SEO Optimization)  
Web Developer

Karachi, PK  
Jan 2022 – Dec 2022

- As a Freelance WordPress Developer, I create and customize WordPress websites, ensuring responsive design, SEO optimization, and high performance.
- Developed and customized WordPress websites, including creating custom themes and plugins, ensuring functionality and user experience aligned with client needs.

- Built and optimized Shopify e-commerce stores, focusing on theme customization, app integration, and enhancing product listings for better user engagement and sales performance.
- Implemented SEO best practices on both WordPress and Shopify platforms, including on-page SEO, keyword optimization, and site speed enhancements, leading to higher search engine rankings.
- Conducted SEO audits and optimized content through keyword research, meta tag adjustments, and technical fixes, resulting in increased organic traffic and improved site performance.
- Collaborated with content creators and marketing teams to ensure websites were SEO-friendly, driving better visibility and engagement across digital platforms.
- Monitored website performance using SEO tools like Google Analytics and Search Console, continuously refining strategies to boost search rankings and user experience.
